

# Down Home Acres

## VEGGIES

Nestled along the rich, fertile river bottom land of the Susquehanna, Down Home Acres is a diversified, family-run vegetable farm operated by Paul & Hana Crognale. We grow a wide variety of vegetables year-round—including unique & flavorful heirloom varieties—using Integrated Pest Management (IPM) strategies to prioritize the health of our soil, crops, and community.

We extend our growing season with high tunnels, allowing us to offer fresh, local produce in the colder months. You'll find our vegetables and beautiful seasonal cut flowers at our Unadilla farm stand, as well as at two beloved NYC Greenmarkets

We invite you to enjoy the bounty of our fields & the care we put into everything we grow.
