

# Perry's Farmstand LLC

**BUTTER,  
VEGGIES**

With beginnings as a small family dairy, the farm has evolved over the years, first to produce beef, pork, lamb and chicken. After suffering the loss of the farm buildings to a devastating fire, it was time to reevaluate and rebuild. Today the farm has a new barn and to continue producing freezer-fresh, antibiotic and hormone free meats and has expanded to encompass the farm stand offering a full complement of farm produce, meats, dairy, maple, honey, & baked goods. Today we are open year round, 7 days a week fulfilling our mission of bringing fresh local food to our community.
