

Neonatal Abstinence Syndrome: An Unintended Consequence of Opioid Abuse Disorder

KEYNOTE SPEAKER: MICHELE CALIVA, RN, MA, CSPI

This presentation will provide an overview of NAS, including what causes it, the clinical effects, and long term effects. In addition, we will cover how NAS is managed in the hospital and at home, the implications around breast feeding and what support services are available for mom and the baby. Best practices addressing this disorder will also be discussed as well as the prevalence within our state. The final component of this presentation is the growing trends within the opioid epidemic. Two sessions will be offered; one in the morning, and another in the afternoon.

TUESDAY, MARCH 6, 2018

9:00 - 11:00 AM & 1:00 PM - 3:00PM

CORNELL COOPERATIVE EXTENSION
